Subject: EPA to Issue Information Request to Utica Resource in Marietta, Ohio

EPA will soon send an information request to Utica Resource Operating, LLC (URO) in Marietta, Ohio. EPA inspected 11 pads and found significant uncaptured emissions from storage tanks, combustors not operating, and poor vapor collection design that is inhibiting proper emissions control. The previous owner, PDC was subject to a federal judicial settlement in 2017 for similar violations. The information request relates to compliance with current permits and NSPS Subparts OOOO and OOOOa applicability.

Let me know if you'd like to discuss,

Brian Dickens, Chief
Air Enforcement and Compliance Assurance Section
